SUMMARY

PMP-certified engineer with experience in project planning, quality management, facility services, and O&M. Skilled in project controls, KPIs monitoring, HSE compliance, stakeholder coordination, and ongoing development across large enterprise activities.

EDUCATION

Bachelor of Science in Industrial Engineering – King Abdulaziz University, Jeddah – 2015.

EXPERIENCE

Planning and Quality Engineer Nov 2025 – Present

SHALFA International Company – Client: National Water Company (NWC)

- Developed Quality Plans for maintenance, cleaning, and hospitality services.
- Conducted facility inspections and ensured compliance with ISO standards across NWC sites.
- Prepared Quality reports to support continuous improvement initiatives.
- Collaborated with operational team to ensure adherence to Quality KPIs and SLAs.
- Achieved a 2.5% reduction in electricity consumption across northwestern-sector NWC buildings (June 2026).

Project Engineer Dec 2025 – Present

AlEmam for Engineering Company – Part-time, Remote

- Developed schedules, milestones, and engineering team assignments.
- Monitored project cost, budgets, and task progress remotely.
- Coordinated progress meetings with clients, consultants, and project teams.

Deputy Project Manager Feb 2019 – Dec 2024

Saraya Al-Jazeera Contracting Co.

- Supported operational planning and coordinated field teams, equipment, and resources across project areas.
- Monitored KPIs, service quality, safety, and compliance to municipal observations and Balady 940.
- Coordinated with HR, maintenance, and procurement to maintain service continuity and developed dashboards for performance reporting.

Operations Manager Jul 2016 – Oct 2018

Seder Group Trading and Contracting Co.

- Led 800 employees and 150 vehicles across districts, overseeing cleaning, waste collection, pest control, and illegal dumping removal.

- Managed schedules, KPIs, safety, compliance, and performance reporting in line with municipal requirements.
- Coordinated timely responses and closure of Balady 940 service and compliance cases.

Operations Specialist Jan 2012 – Nov 2015

Saeed Al-Ghamdi General Contracting

- Coordinated heavy equipment allocation and movement across multiple operational sites.
- Supervised personnel during loading, transportation, and unloading.
- Monitored equipment availability and resolved scheduling and operational issues.

CERTIFICATIONS

- Project Management Professional (PMP) – Project Management Institute (PMI) – May 2026 – Cert. #: 4369506
- Professional Engineering License – Saudi Council of Engineers – Membership: 414556

AWARDS

- 2nd Place (of 20 teams) – AI in Project Management Hackathon 2026 – Global Project Management Forum (GPMF) – Mentor, Team BURHAN – Sep 2026

TECHNICAL SKILLS

- Supply Chain Tools: Oracle ERP, Procurement Planning, Vendor Management, KPI Tracking.
- Data Analytics: Power BI, Microsoft Excel (advanced, Pivot Tables).
- Project Management: Trello, Jira, AutoCAD, SolidWorks.
- Artificial Intelligence: Prompt Engineering, Claude, Infinity, Perplexity, ChatGPT.
- Productivity Tools: Microsoft Office – Copilot 365, Word, Excel, PowerPoint, Outlook, Notion.

SOFT SKILLS

- Strategic Planning & Decision Making.
- Leadership & Team Empowerment.
- Stakeholder Communication & Negotiation.
- Adaptability, Time Management, and Collaboration.
- Internal Knowledge Transfer and Process Documentation.
- Continuous Improvement & Innovation.

LANGUAGES

Arabic: Native English: Professional (STEP:78).

COURSES

- Introduction to AI Governance – Sep 2026.
- CFM Preparation Training – HSEQ Professionals – July 2026.
- Government Procurement & Contracts Professional Program – June 2026.
- Artificial Intelligence Concepts and Advanced Applications – May 2026.
- Fundamentals of Artificial Intelligence – Feb 2026.
- PMP Exam Preparation Course (70 hours) – June 2025.
- Agile Methodology – June 2025

- Feasibility Study – June 2025.
- AI Powered Project Management – May 2025.
- Soft Skills for Project Managers – May 2025.
- Operations Management – May 2025.
- Crisis and Disaster Management – May 2025.
- Occupational Safety and Health Specialist – April 2025.
- Total Quality Management – March 2024.

PROJECTS

Quality & Compliance Oct 2021 – May 2024

Analyzing and processing returned quality reports within (Balady 940) system to identify discrepancies and support corrective actions for Jeddah Municipality Contracts.

Project Coordinator May 2025 – Jul 2025

Led the coordination of the Virtual Photovoltaic Solar Power Station initiative, applying PMP methodology to structure project phases and deliverables.

Core SKILLS

Operational Planning & Execution	Workforce & Equipment Management	Performance Monitoring & Reporting	Government Quality & Compliance (Balady 940 System).
Health Safety & Environmental (HSE) Management	Resource Optimization & Cost Control	Administrative Supervision & Shift Management	Interdepartmental Coordination
Field Team Evaluation & Development	Logistical Support & Maintenance Scheduling	Service Continuity and Process Improvement	Stakeholder Engagement and Negotiation
Data Analysis, KPI Dashboard Design	Quality Control Systems and Auditing	Corrective Action Planning and Reporting	Logistics Coordination and Supplier Relationship Management
Quality Assurance & Control (QA/QC)	Corrective & Preventive Actions (CAPA)	5S, Lean & Six Sigma Methodologies	Non-Conformance Reports (NCRs) Management
Process Optimization & Continuous Improvement	Project Scheduling & Milestone Tracking	Municipal Cleaning & Waste Management	Heavy Equipment & Fleet Coordination
